

**01. COLOR** everything in first... preferably with colored pencils to get into the tight spots!

**02. CUT** along the dotted lines to cut out the table and characters. Then cut out the Wine and Bread keeping the GLUE boxes attached.

**03. FOLD** the page along all the gray lines. Now you can stand the paper up so that the bottom with the logo makes a floor base for the table. The scripture should face you, the plates lie flat, and the characters stand.

**04. GLUE** or use double sided tape on the GLUE boxes below the Bread and Wine. Then fold the GLUE tab and place them on the table to stand them up.
